Vivienne,

Thank you for your patience.

The following (less the italicized) have all affirmatively passed a resolution to participate in the u196 board selection process. In finalizing the paperwork the other week, Sharon Township (which has not previously taken a formal position) did not agree to pass the resolution, making them the fifth community not participating in the u196 board. This means, however, that 22 out of 27 governments (including Ann Arbor) ARE participating and are at the table. Our plan has been to include the Act 7s filed as attachments to the final Articles and Public Transportation Agreement.

The fully executed, signed agreements have been filed at the State and are attached per your request.
